

A Smooth Coding Solution at Green Angel Cosmetics

Green Angel is an award winning luxurious range of Irish skincare, hair care and bath care preparations, which are based on the fusion of Irish seaweed and natural essential oils. The dual energy blend of their unique qualities provides Green Angel Irish Skincare with a truly outstanding range. Founded in 2006 by Chris and Mary Mitchell when they saw a gap in the market and an opportunity to develop a natural skincare brand that really works. All of the products are meticulously blended in Rathcoole Co. Dublin and carry the "Guaranteed Irish" logo. There are more than 33 unique products, it is available at select pharmacies and department stores nationwide.

Bespoke Solution The company had a requirement for a scalable coding solution in order to print 2 lines of product information (batch no. and date of production) on to a wide variety of packaging substrates including: cartons, tubs, bottles, jars and gift sets. The solution also had to be easy to use as several employees would be using the coding station on a daily basis. The success of the installation has been extremely positive on two fronts. Firstly, the coding printer could easily handle over 1,000 items a day with excellent quality print over all the different substrates. Secondly, the coding station has meant the company realizing a huge saving in terms of time the required 70 prints per min rate with ease. Approx 7 man -hours saved per day since installation
